

GET CONNECTED WITH YOUR WATERFRONT COMMUNITY!

In an effort to keep the Turkey Creek residents informed about their waterway, the FOTC, the City of Palm Bay, and State and Federal agencies have teamed together to inform local citizens of the upcoming Turkey Creek Dredging & Sump Project and the status of the C-1 Re-diversion Project.

The logo for Friends of Turkey Creek (FOTC) is displayed in a circular frame. The letters 'FOTC' are rendered in a bold, 3D, metallic style. The background of the circle shows a scenic view of a creek with lush green trees on the banks and water flowing in the foreground.

FOTC

The Friends of Turkey Creek is a volunteer group of homeowners on the Turkey Creek waterway dedicated to achieving a balanced environment for the Turkey Creek and Indian River Lagoon watershed, while retaining waterway access for the community. Since the dredging of Turkey Creek in 2001, sediment has started to refill our waterway, damaging the water quality and natural environment of Turkey Creek. The FOTC along with City, State, Federal representatives and our elected officials have been working together to seek long-term planning and funding solutions to this problem.

Friends of Turkey Creek

WHEN: November 30, 2004, 7:00 pm

WHERE: City of Palm Bay Community Recreation Center
1502 Port Malabar Blvd., Palm Bay

For more information, contact John Mongioi at 725-2823 or visit our website at www.foturkeycreek.org.
